

Charlotte's career as a Hockey Mom began fourteen years ago in Bedford when her two twin boys, Alex and Riley, first strapped on a pair of skates. Moving to the Chebucto community in 2011, the boys continued playing minor hockey until they recently aged out. That wasn't the end of Charlotte's time in the rink. The newest member of the family, Lachlan, was just about to strap his own pair of skates!

Charlotte has been an active member with Chebucto Minor Hockey throughout the years. Charlotte participated on various fundraising committees. She was a manager for teams in both competitive and recreational divisions, and during the Covid lockdown periods, was a safety rep. Most recently, Charlotte was the U9 coordinator working closely with the U9 VP.

Charlotte is passionate about hockey and about making the experience fun and meaningful for players and their families. She believes players can learn the value of community and friendship, while honing their skills on the ice to develop as players. Charlotte would bring experience, dedication and commitment to the U9 VP role and would strive to make all U9 families feel welcome and included in the Chebucto community.
